

Can I mix glyphosate with foliar fertilizers?

Glyphosate and Foliar Manganese Timing on Soybeans
North Central Reserach Station - 2008

Rates: 3 gal/A Sure-K, 2 qt/A Mn, 1 qt/A Roundup Original Max

The addition of **Agro-Culture Liquid Fertilizers' Sure-K™** and **4% Manganese™** to a glyphosate application saves money in application cost while protecting yield without risk of reducing weed control.
