pH @ 15.5°C	7.2 - 7.6
Freezing Point	-21.6°C

DIRECTIONS FOR USE

Micro 600 is intended for mixing or blending with other liquid fertilizers. This product must be used on the basis of soil and/or tissue analysis, crop grown, yield goals and provincial and federal recommendations for micronutrient applications.

In all cases, seek the advice of the county agricultural representative or a professional agricultural consultant to determine the appropriate rate or the compatibility with other fertilizer products.
