

Dry Non-Rx - Grower Standard in this area is 150lbs of DAP and 150 lbs of MOP broadcast

AgroLiquid Base – Matches the dry non-Rx app using all AgroLiquid with 5 gals Pro-Germinator and 5 gals Kalibrate

Reduced DAP + 3 gal Pro-Germ. – Common practice in this region of reducing DAP in Dry Non-Rx application by 65 lbs and replacing with 3 gal Pro-Germinator

\$ for \$ - Goal is to match dollars spent on Dry Non-Rx program but customize nutrient recommendation for the specific field
