

Strive

ROI 4.4:1

Strive is a specialty foliar stimulant that helps the plant mitigate stress and ultimately lower the potential for yield loss from a stress event. Applied at heading we have seen consistently good results.

Ferti-Rain

ROI 2.9:1

Ferti-Rain is a 12-3-3 balanced foliar nutrition containing primary, secondary, and micro nutrients. Ferti-Rain is a low salt quick release foliar feed that is safe for all field crops. This product has been evaluated for 7 years and we have consistently seen a 5 bushel yield increase when applied at heading on wheat.
